subjects

Adolescents
counseling the obese, Jul, p 201
diabetic, benefit from exercise, Jul, p 118
fitness level uncertain, Feb, p 36
girls less fit than boys, Nov, p 156
high school football injuries surveyed (NATA), Mar, p 44
high school girls basketball injuries documented (NATA), Aug, p 62
maturation and training in female athletes, Jun, p 219
maturity assessment with preparticipation physical exam, Mar, p 67
mitral valve prolapse, Jun, p 194
nutrition: pathogenic weight-control behaviors of young swimmers, May, p 75; (letter) Aug, p 26
soccer gaining acceptance, Aug, p 150
wrestling: conditioning principles, Jan, p 153
wrestling injuries, Jan, p 136
Air pollution
fumes in ice arena sicken hockey players, May, p 47
Allergy
food, and athletes, Mar, p 209
All-terrain vehicles
medical groups condemn unregulated use of, Jan, p 48
Altitude
hypoxia and CNS impairment, Mar, p 38
American Academy of Pediatrics
stress fractures discussed, Aug, p 57
American Academy of Pediatrics Policy Statements
exercise for mentally retarded children, Dec, p 141
American College of Sports Medicine
certification for fitness instructors, Sep, p 58
first clinical conference held, May, p 47
Anemia
in athletes (letter), Feb, p 39
Ankle injuries
sprains, recurrent, in a college football player, Nov, p 57
volleyball, Aug, p 75
Arthritis
age-related, and running, Nov, p 51
Arthroscopy
overrated?, Mar, p 161; (letter) Jul, p 62
Artificial surfaces
turf burns, new treatment for (letter), Jan, p 61
Asthma
camps for children, Jul, p 177
exercise-induced, Jul, p 100
Athletic care
acoustic arthrography being tested, Jun, p 65
for circus performers, Mar, p 192
massage: its role in sports medicine, Mar, p 177; (letter) Jun, p 55
medical, at the Birkebeiner, Feb, p 170
medical, at endurance events, Nov, p 140
medical, at Pan American Games, Jul, p 157
preparticipation exams and maturity assessment for young athletes, Mar, p 67
psychological, for stresses of professional sports, May, p 121
Australia
diet practices of elite male triathletes, Feb, p 140

Back injuries
spondyloysis in weight lifters, Oct, p 57
Back pain
chymopapain for, Sep, p 185
in competitive athletes, Jan, p 105; (letter) May, p 33
in the cosmetic athlete, Aug, p 97
Baseball
deaths, in children, Feb, p 31
shoes: plastic cleats dangerous (letter), May, p 33
Baseball injuries
fracture-displacement of clavicular head (case report), Jul, p 87
Basketball injuries
fracture, fifth metatarsal (case conference), Sep, p 73
high school, girls, Aug, p 62
Bicycling
all-terrain bikes, Mar, p 184
safety, for children, Jun, p 202; (letter) Sep, p 47
Blood
cerebral blood flow studies conflict, Jan, p 202
Blood diseases: see also Anemia
hemophilia: camps for children, Jul, p 177
sickle cell trait and exercise-induced death, Dec, p 41; p 143
Blood doping
effects of, Jan, p 120
improves performance, Aug, p 123
test for detection developed, Jan, p 204
Body composition
body fat percent, its importance, Mar, p 216
electrical impedance for measuring body fat, Sep, p 51
and nutrition habits of female college athletes, Jan, p 63
underwater weighing: accuracy challenged, Mar, p 41
Bodybuilding
characteristics of steroid-free males and females, Jun, p 169
Bone: see Osteoporosis
Brain injury
in football, Jun, p 39
Burns
turf, new treatment for (letter), Jan, p 61

Canada
elite athlete testing labs established, Jan, p 201
Canadian Association of Sports Sciences
elite athlete testing labs established, Jan, p 201
Cancer
and exercise (letter), Jan, p 58; Jun, p 109
skin: tanning booths risky, Jul, p 59; (letter) Oct, p 71
Cheerleading
athletic activity, not a sport, Sep, p 214; (letter) Dec, p 13
Children in sports
avulsion fracture of anterior cruciate ligament in a child, Jun, p 121
bicycle safety, Jun, p 202; (letter) Sep, p 47
camps for those with medical conditions, Jul, p 177
deaths in baseball, softball, Feb, p 31
energy: how much do they have?, Jul, p 207
exercise for mentally retarded (AAP policy statement), Dec, p 141
exercise programs for infants, preschoolers (letter), Mar, p 53
fitness level uncertain, Feb, p 36
girls less fit than boys, Nov, p 156
hypertension and exercise, Apr, p 39
hyperthermia, risk of, Feb, p 29
injuries on the playground, Apr, p 162
maturity assessment with preparticipation physical, Mar, p 67
mitral valve prolapse, Jun, p 194
nutrition: pathogenic weight-control behaviors of young swimmers, May, p 75; (letter) Aug, p 26
pressure on elite athletes, Aug, p 128
soccer gaining acceptance, Aug, p 150
Circadian rhythms
jet lag: effect on athletes, Feb, p 31
Clinics and centers
sports medicine directory, Sep, p 221
Consumer Product Safety Commission
ATVs: medical groups condemn unregulated use of, Jan, p 49

Dance
aerobic, instructor certification (letter), Mar, p 52; Sep, p 58
aerobic, and interval training, Aug, p 59
Death
in children, from baseball, softball, Feb, p 31
football, Jun, p 39
football-related fatalities increase, Jun, p 63
sudden, and echocardiography, Jan, p 48
Dental care
mouth guards: which athletes need them?, Sep, p 179
for sports-related injuries, Sep, p 81
Diabetes
adolescents benefit from exercise, Jul, p 118

continued

camps for children, Jul, p 177
and exercise, Apr, p 45
and exercise (NIH statement), Feb, p 29
Directories
injury statistics resource list, Apr, p 179
sports medicine centers, Sep, p 221
sports medicine organizations and resource groups, Dec, p 155
Diving: see Scuba diving
Drugs
abuse in sports, Mar, p 99
beta-blockade and exercise in hypertensive patients, Mar, p 38
bicarbonate doping, Dec, p 49
chymopapain for back pain, Sep, p 185
NCAA testing program challenged, Jun, p 63
steroids, anabolic: controlling the supply, May, p 41; (letter) Aug, p 28
steroids and ethics (letter), Feb, p 44; (letter) June, p 52
steroids: reclassify as controlled substance?, May, p 140; p 151
testing at marathons, Mar, p 39
testing and moral responsibility (letter), Feb, p 42
testing, at Pan American Games, Jul, p 157
USOC hot line heavily used, Aug, p 33

Ear injuries
in surfing, Dec, p 96
Eating disorders
anorectic patients and compulsive runners compared, Dec, p 162
in female athletes, Feb, p 88
of young competitive swimmers, May, p 75; (letter) Aug, p 26
Echocardiography
effective but costly for detecting abnormalities, Jan, p 48
Epilepsy
camps for children, Jul, p 177
Equipment
bra, sports: evaluations of, May, p 128
eye guards for racket sports, Jun, p 180
hand weights, for walking, Jun, p 133
insurance, liability: crisis for manufacturers, Sep, p 192
knee braces in football ineffective, Jun, p 64
mouth appliances for TMJ problems (letter), May, p 36
mouth guards: which athletes need them?, Sep, p 179
orthoses in ski boots correct varum alignment, Sep, p 162
playground, and injuries, Apr, p 162
shoes, baseball: plastic cleats dangerous (letter), May, p 33
shoes, walking: special ones needed?, Jun, p 213
ski, and safety, Dec, p 106
Ergogenics
abuse in sports, Mar, p 99
bicarbonate doping, Dec, p 49
blood doping, effects of, Jan, p 120
blood doping improves performance, Aug, p 123
blood doping: test for detection developed, Jan, p 204
diet manipulation, Feb, p 157; (letter) Jun, p 52
Ergometers
bicycle, for estimating $\dot{V}O_2$ max (letter), Jan, p 61
Ethics
advertising: use of fitness and exercise, May, p 160
and drug testing (letter), Feb, p 42; Mar, p 39
and scuba divers with disabilities, Jun, p 224; (letter) Oct, p 70
and steroids (letter), Feb, p 44; (letter) Jun, p 52
tobacco, smokeless: should be banned in sports competition, Jul, p 148; (letter) Dec, p 13
Exercise
vs activity, Oct, p 181
American adults, participation of, Apr, p 118
and asthma, Jul, p 100
and beta-blockade in hypertensive patients, Mar, p 38
beta-endorphin levels and ischemia, Mar, p 40
bicycles: all-terrain vs road for fitness, Mar, p 184
for bypass surgery patients, Mar, p 141
capacity: a definition, Apr, p 186
and cancer (letter), Jan, p 58; Jun, p 109
and cholesterol, Aug, p 113
and the common cold, Feb, p 197
continuous passive motion, Aug, p 142
and diabetes, Apr, p 45; Jul, p 118
and diabetes (NIH statement), Feb, p 29
endurance training for cardiac patients, Sep, p 128
footbagging gaining in popularity, May, p 44
and gastrointestinal function, Sep, p 112
health benefits of, Oct, p 114; Nov, p 120
heart disease and HDL-C, Feb, p 67
heart disease and physical inactivity, Nov, p 43
for heart-lung transplant patients, Mar, p 40
and heart rate and lactate levels, May, p 97
and hormones in men, Jan, p 180
how much is enough?, Dec, p 49
for hypertensive children, Apr, p 39
and infection, Oct, p 134
isometric vs dynamic, Oct, p 191
jogging vs skipping for aerobic fitness, May, p 109
jumping rope for fitness (letter), Jan, p 58; (letter) May, p 36
and learning at Cincinnati Academy, Apr, p 173
for mentally retarded children (AAP policy statement), Dec, p 141
morning, and heart disease, Apr, p 39
and multiple sclerosis, Aug, p 58; (letter) Dec, p 13
pain: when is it appropriate?, Sep, p 244
and pregnancy, Jul, p 51
programs for infants, preschoolers (letter), Mar, p 53
resistance, for inflammation, Oct, p 59
and serum androgens in women, May, p 87
sickle cell trait and death, Dec, p 41; p 143
stair climbing for fitness, Feb, p 165; (letter) May, p 35; (letter) Jun, p 55
stretching programs of intercollegiate athletes, Mar, p 130
swimming: benefits for middle-aged men, women, Jul, p 51
target heart rate defined, Jan, p 214
tennis: singles vs doubles for fitness, Jul, p 67
videotapes for home workouts, Oct, p 164
walking for fitness, Feb, p 119; (letter) Mar, p 52
walking with hand weights, Jun, p 133
warming up, cooling down, Nov, p 168
water, for fitness (letter), Jan, p 61
and women, postmenopausal, Aug, p 90
Exercise leaders
certifying aerobic dance instructors (letter), Mar, p 52; Sep, p 58
Exercise prescription
walking for fitness (letter), Mar, p 52
water exercise for fitness (letter), Jan, p 61
Exercise testing
of Army Reserve members, Apr, p 42
cycle ergometry for estimating $\dot{V}O_2$ max (letter), Jan, p 61
youth fitness level uncertain, Feb, p 36
Eye injuries
in college sports, Oct, p 64; (letter) Dec, p 13
protection in racket sports, Jun, p 180
in surfing, Dec, p 96
tanning booths risky, Jul, p 59; (letter) Oct, p 71

Female athletes
amenorrhea, exercise-induced, Jul, p 184
basketball injuries, Aug, p 62
bra, sports: evaluations of, May, p 128
breast problems, Mar, p 89; (letter) Jun, p 56; (letter) Aug, p 25
college, nutrition education of, Jan, p 63
and eating disorders, Feb, p 88
exercise and pregnancy, Jul, p 51
low back pain in the cosmetic athlete, Aug, p 97
menstrual function and exercise, Jun, p 219
and serum androgens, May, p 87
FIMS: see International Federation of Sports Medicine
Flexibility
hypermobility and knee injuries, Jun, p 159
Foot
running barefoot: is it safe?, Sep, p 51
Foot injuries
avulsion fracture of anterior calcaneal process, Apr, p 73; (letter) Jun, p 58; (letter) Oct, p 72
fracture, fifth metatarsal, in a basketball player, Sep, p 73
fractures, stress, Aug, p 83
heel spur syndrome, Feb, p 83; (correction) May, p 37; (letter) Jun, p 51

heel pain from stress fracture, Oct, p 56
pain, from lower leg varum alignment in skiing, Sep, p 162
Football
fitness changes in professional players during preseason conditioning, Sep, p 92
Football injuries
ankle sprains, recurrent, in a college running back, Nov, p 57
brain, Jun, p 39
fatalities increase, Jun, p 63
high school (NATA survey), Mar, p 44
knee braces ineffective (NCAA study), Jun, p 64
mouth appliances and TMJ dysfunction (letter), May, p 36
spondylotic cervical radiculopathy, Jul, p 79
turf burns, new treatment for (letter), Jan, p 61

Fractures
avulsion, of anterior calcaneal process, Apr, p 73; (letter) Jun, p 58; (letter) Oct, p 72
avulsion, anterior cruciate ligament, in a child, Jun, p 121
of clavicular head in a baseball player, Jul, p 87
fifth metatarsal, in a basketball player, Sep, p 73
stress, Aug, p 57
stress, of calcaneus, Oct, p 56
stress, of the foot, Aug, p 83
wrist: treatment methods studied, May, p 63

Garrick, James
on stress fractures, Aug, p 57
Gastrointestinal function
exercise-induced symptoms, management of, Sep, p 112
symptoms in triathletes, Sep, p 105
Golf injuries
prevalence, prevention of, Jul, p 190; (letter) Nov, p 36
Government agencies
